

# Certified Testers Listings

## A COMPLIMENTARY LISTING OF CERTIFIED TESTERS

The following pages contain the names and contact information for certified Backflow Device Testers that are approved by the State of New Jersey to perform the appropriate testing needed to comply with the **Uniform Construction Code section 5:23-2.23(l) 4.** and the National Standard Plumbing Code section 10.5.6(b).

The first page is a listing of Backflow Device Inspectors / Testers who are certified by the **American Society of Sanitary Engineering (ASSE)**. Following that is a list of approved Inspectors / Testers certified by the **New England Water Works Association (NEWWA)**

Please note that my name appears on both lists, as I am certified by both agencies. But as the appointed Plumbing Subcode Official for the Township of East Brunswick, I am prohibited by law from performing certification testing of these devices in the Township of East Brunswick or any adjacent municipality pursuant to conflict of interest regulations in the **Uniform Construction Code (UCC) section 5:23-435 (J) 2.**

Should you require any additional information regarding our Cross Connection Control program, or if you would like to receive literature about why maintaining these devices is essential in protecting the integrity of our water distribution system for maintaining a safe and wholesome supply of water, please feel free to contact me by phone or email.

Sincerely,

Thomas F Walsh  
Plumbing Subcode Official  
Township of East Brunswick  
Division of Construction Inspection  
1 Civic Center Drive PO Box 1081  
East Brunswick, New Jersey 08816
